# MARKET GARDENERS'

PRICE LIST OF

.... SELECT ....

# VEGETABLE SEEDS

BURWELL'S X-TRA FLAT DUTCH

## ELLSWORTH E. BURWELL

160 Burwell Street

New Haven, Conn.

1904.

# Does Quality and Purity Count?

**QUALITY in Seeds  
Brings Quantity and  
Quality in the Crop.**

I believe in improving by selection as far as possible the best of the standard varieties, adding newer varieties as soon as they prove to be superior. The varieties herein listed are those used most largely by the best Market Gardeners. I have tried to make the list as brief as possible and to the point. Too many varieties are often misleading. All seeds offered by me have been grown and selected with the utmost care, to have all varieties pure and true to name.

## **AND I WILL GUARANTEE**

that all seeds sold by me shall be as represented; should they prove otherwise, I will fill the order gratis. But I cannot guarantee more than this, or guarantee the crop in any way, as there are so many causes over which I have no control, that, let seeds be ever so fresh, weather and other circumstances may cause a total failure.

For many years I have made a specialty of Market Gardeners' Seeds, grown from selected seed stock. The importance of following this system for the production of choice vegetables is familiar to all gardeners; if the vegetable from which seeds are grown are inferior or impure, so will be their product. *Perfection of quality with me is of the first importance.*

**I make no charge for packing.** Bags charged at cost price only.

**Half a bushel will be supplied at bushel rates; half a peck at peck rates; one-half pound at pound rates.** Orders for less than one-half peck or one-quarter pound will be charged at quart and ounce prices.

When seeds are to be sent by mail, in larger quantities than packets and ounces, postage must be added at the rate of 8 cents per pound, or 15 cents per quart for Peas and Beans, and 10 cents for Corn.

GENERAL LIST

Henderson's Early Snowball. The best and most reliable variety for either early or late planting, true stock.....	.20	2.00	7.75
Extra Early Dwarf Erfurt. Select stock.....	.20	2.00	7.50

### CABBAGE

The Cabbage crop is one of the first in importance with the Market Gardener, and its success or failure is due in a large measure, to the seed used. The only consideration is "Where can the best seeds be procured?" To meet the demand made on us for this class of seed, we are paying special attention to its production, and to secure the best seed, we select fully developed heads, such as are absolutely perfect.

	Oz.	1/4 Lb.	Lb.
Large Jersey Wakefield. The best, large early variety, <i>choice</i> .....	.25	.75	2.75
Burgee's All Head. The best for second early and very late planting. <i>Choice</i> stock.....	.25	.75	2.75

## Burwell's Special Formula Fertilizers.

For all crops and soils, and mixed to order from best materials only. I have had over 30 years experience in using Fertilizers and Chemicals, mixing and manufacturing my own Fertilizers, and testing them with the leading brands on the market, and on different crops and soils.

At the earnest solicitation of my customers I have furnished them with my special mixtures for several years, and always (in favorable seasons) with the *very best satisfaction*. In buying *special* Fertilizers for your crops you are buying just the amount of plant food that that particular crop requires, *as near as can be calculated*, to carry it from start to finish; no more, no less. And right here is where "experience is the best teacher;" it *must* be in the right form to give best results.

### FERTILIZING MATERIALS and CHEMICALS

Special prices given on application, correspondence solicited.

## SPECIAL LOW PRICES ON

Freeman & Sons Wind Mills, Feed and Ensilage Cutters,  
Feed Grinders, Fanning Mills, Corn Shellers, etc.

### PURE PARIS GREEN.

In packages,  $\frac{1}{4}$  lb. 10c.  $\frac{1}{2}$  lb. 15c. 1 lb. 25c. C. T. Reynolds Brand  
Warranted perfectly pure.

## The Deming Kerosene Sprayers.

For mechanically mixing kerosene and water. These sprayers are the best now on the market. The "Success" Sprayer made by the Deming Co. is a bucket pump, having a copper oil tank improved combination foot rest and bucket clamp, four feet discharge hose and Bordeaux nozzle. This oil tank which is removable, has an indicator which can be placed to use from 5 to 50% of oil. For lice on plants, cattle and poultry, cabbage worms, San José scale and all scale insects, use a Kerosene Sprayer.

### PERSONAL ATTENTION

Given to all mail orders. I can furnish anything in the Seed line at prices quoted by any *reliable* Seedsman. I have also standard varieties of Flower Seeds, such as Mixed Sweet Peas, Nasturtiums, etc: Write me for prices on anything in my line you require. Thanking all for past favors, I respectfully ask for a continuance of the same.
